

NEW

product launch

Maxi Orange

fully potted to reduce noise output

push in electrical connections

base designed to reduce sound transmission

Introducing the **NEW** Aspen Maxi Orange Pump.

It is designed to be installed:

- above the false ceiling where possible
- in plastic trunking conduit
- behind wall mounted evaporators

By connecting the drain hose to the reservoir and placing the pump drive unit within the evaporator, condensate water can be pumped to a height of 20 metres.

Within the Maxi Orange kit there are two reservoirs to choose from, one allows you to connect directly to the drain hose of the evaporator and the second reservoir can be placed directly into a condensate tray, providing it is sitting flat and horizontal.

PUMP DIMENSIONS

Height	Width	Depth	Weight
66mm	122mm	44mm	0.45kg

TECHNICAL SPECIFICATIONS

- Power supply: 230V - 20W
- 1PH 50 Hz
- Volt free N.O, N.C 8A RESISTIVE (5A INDUCTIVE)
- Hall effect semi conductor level sensors
- Water flow rate: 37ltrs/hour at zero head
- Maximum recommended head: 20mtrs
- 35dB(A) @ 1 metre head
- Fully potted
- Thermally protected
- CE marked
